Instant Staple Remover A1

FOR CANON OFFICE SOLUTIONS

(Document scanner sold separately)

The Instant Staple Remover is designed for quick and clean staple removal without damaging documents.

HEAVY DUTY AND FLEXIBLE

The Instant Staple Remover can help improve workflows and productivity. Efficiently remove staples from documents before scanning to cut down on document preparation time. Remove staples, of multiple standard sizes, from up to 30 sheets at once.

EASY TO USE

Line up the legs of the staple with the LED light on the staple remover and with one press of a button your staple is removed.

CLEAN REMOVAL

Automatic removal of staples can help reduce document damage. The staple marks that remain after the staple is removed are small and in most cases there is no additional damage or tearing of the documents[1].

EASY TO CLEAN

A convenient staple bin holds the staples after they are removed. A blinking indicator light will notify the user when the staple bin is ready to be emptied.
