# PaperStream Capture
Capture. Optimize. Access.

PaperStream Capture provides a digital on-ramp for businesses. This in-box software builds on the powerful PaperStream IP TWAIN and ISIS drivers to deliver the best image quality in a small file size. The user-friendly interface, with its simple icons and intuitive navigation, decreases operator training times. Easy-to-use profile flexibility gets the documents to the right location in the correct file format without changing existing workflows. PaperStream Capture is the perfect front-end software for your document capture workflows.

AutoColor	Color	Black & White

Auto Profile Selection
PaperStream Capture reads the documents and applies a set of driver rules to capture the image perfectly.

Multi-image Output
Scan one document and output up to three files in different color depths

One-Push Scan
PaperStream Capture can be configured to push one button to scan, saving time and clicks.

Standard File Outputs
Scan to PDF, PDF/A, PDF with OCR, TIFF Group 4, Multipage TIFF, JPEG, BMP with a single click.

Preset Profiles
Built-in Black & White, Color, and Auto-Color profiles saves time.

Automatic Image Quality Check
Batches automatically mark multi-feeds and document edge issues for fast quality control.

Review
Detailed thumbnails and zoom allow for quick quality review.

Scanner Central Admin Profile Integration
Manage and deploy fleet updates and profiles centrally

Assisted Scan Integration
Use PaperStream IP TWAIN and ISIS integrated Assisted Scan for quick rescan and powerful image clean up.

Batch Separation
Separate documents with barcodes and patch codes to avoid post process file organization.

File or Folder Naming
Barcode reader and Zone OCR to name a file or folder for fast file organization.

Release File Naming
Name scanned files at release for ad hoc batches.
