

FAST. HELPFUL. BUSINESS-FRIENDLY.

The **Kodak ScanMate** i1150 Scanner Puts the Focus on Customers

CHALLENGE

Capture Documents and Extract Information Quickly in Customer-Facing Situations

- Today, the speed of business transactions is hectic. In many customer-facing situations, businesses need to scan documents and capture information quickly, and move on to the next transaction...fast!
- Business representatives at a registration desk may have to scan a mix of paper documents and an ID or account card. It's important for the representative to keep these items from getting lost or misfiled while the transaction is in process.
- Scanning should not divert the representative's attention from the customer in front of him or her. Office managers need their agents to stay focused on customers, completing functional tasks and increasing the number of transactions per day: efficient imaging technology is essential.

A wide range of organizations face these common challenges including: medical office registration desks, bank teller lines, state and municipal government offices, and insurance agencies.

SOLUTION

Real-World Situations Addressed and Answered

Small, quiet, quick, and intelligently designed, the **Kodak ScanMate** i1150 Scanner is designed for the way you work today.

Capture speed you need

With the "transaction mode" burst speed of the **ScanMate** i1150 Scanner you can zip through a small stack of documents – including cards – in mere moments. Many transactions involve 10 or fewer documents. The **ScanMate** i1150 speeds up 60% to capture the first 10 documents in Transaction Mode and then returns to normal speed.¹

Convenient card holder

Our built-in card holder helps you keep track of cards – in your sight and your customer's – while you are scanning documents.

Jam-free operation and Intelligent Document Protection

Intelligent Document Protection "hears" problems and stops scanning instantly to protect and preserve valuable documents. Kodak Alaris' renowned paper transport technology helps assure jam-free, misfeed-free scanning.

Icon-based screen and one-push scanning/routing

You'll love our intuitive, icon-based, color interface that lets you quickly capture and route information to the right places and people. And the Smart Touch feature is one button easy!

RESULTS

Streamlined Processes, Happier People

- Seamless, quiet transaction capture lets you focus on customers without being distracted by technology
- Fast scanning and information extraction keep processes and people moving
- Better organization for fewer misplaced documents
- Misfeeds and jams virtually eliminated to save time and hassles

Tech Specs That Make Transactions Fly

Kodak ScanMate i1150 Scanner	
Recommended Daily Volume	Up to 3,000 pages per day
Throughput Speeds * (portrait, letter/A4 size, black and white/grayscale/color)	Up to 25 ppm at 200 dpi and 300 dpi
Transaction Mode ¹	40 ppm at 200 dpi and 300 dpi - first 10 pages
Document Sensing	Ultrasonic multi-feed detection; Intelligent Document Protection
Bundled Software	Bundled TWAIN , ISIS , and WIA Drivers; Smart Touch; Kodak Capture Pro Software Limited Edition; Kodak Capture Pro Software Trial Edition; (Linux SANE and TWAIN Drivers available from www.kodakalaris.com/go/ scanonlinux)

Throughput speeds may vary depending on your choice of driver, application software, operating system, PC and selected image processing features

¹ Transaction Mode: Scans 40 ppm for first 10 pages only – then resumes scanning at 25 ppm Complete specifications are available at www.kodakalaris.com/go/scanmatei1150

Kodak Asset Management Software

System administrators can manage and maintain select **Kodak** Scanners on their network through one easy-to-use solution. Optional **Kodak** Asset Management Software, featuring a thin client dashboard, optimizes time, budgets, resources, and efficiency. You'll know more about every scanner and be able to do more across your network.
