

The WideTEK® 36CL-MF scanner forms the basis of all of the MF solutions and is the fastest, most productive wide format MFP solution on the market, running at 10 inches per second at 200 dpi in full color, at the lowest possible price. At the full width of 36" and 600 dpi resolution, the scanner still runs at 1.7 inches per second. WideTEK® 36CL-MF is the best choice to build a powerful and high quality MFP with either an integrated printer series specific stand, a high stand or a standalone stand. All MFP solutions come with a built in closed loop color calibration function producing the best possible copies on your selected printer and paper combination.
