Xerox® DocuMate® 4760

The Xerox® DocuMate® 4760 delivers high-quality production scanning to any organization, at an affordable price. With its powerful combination of image quality, easy-to-use features and fast scanning speeds, it is the perfect solution for businesses looking to achieve high levels of flexibility within a low-volume production scanning environment. The DocuMate 4760 scans documents at 60 ppm (simplex) and 120 ipm (duplex) at 300 dpi in color, grayscale, and black & white modes. It also includes a 150-page capacity Automatic Document Feeder (ADF), has the ability to scan a wide range of mixed document sizes (up to A3 / 11" x 17") and supports long document scanning up to 118" (2997 mm).

Total Flexibility

You don't always know what documents you will need to scan next. You might have clean laser-quality pages today, but tomorrow there may be photographs, A3 documents or even long legal forms. The DocuMate 4760 can handle it all with ease. The 150-page ADF makes short work out of any stack of paper of varying size, and it scans with a gray background to facilitate a wide range of cropping techniques.

Powerful Technology

The DocuMate 4760 is powered by technology to scan documents to up to 9 preset, yet completely configurable, destinations. This enables your document to be scanned with the correct settings for resolution, color, duplex, auto-crop, auto-straighten, file format and then delivered to virtually any application, folder or device. Imagine the workflow possibilities of delivering perfectly-scanned paper documents in a searchable PDF format to email, Xerox® DocuShare or a custom web application for your enterprise—all at the touch of a button. Not only is this a great productivity gain but it greatly reduces the training requirements for scanner users, further helping your return on investment.

Intelligent Productivity

Ultrasonic Double Feed Detection is built into the DocuMate 4760 so you'll never miss a page due to a misfeed or a stapled document going through the scanner.

The DocuMate 4760 offers a professional software package, together with advanced TWAIN™ and ISIS® drivers, to enable communication with advanced electronic content management (ECM) software applications. Productivity has never been so easy or affordable. The DocuMate 4760 is as serious as you are about scanning.

Xerox® DocuMate® 4760 Software Solutions

Visioneer®

OneTouch

OneTouch is an easy-to-use utility that connects the DocuMate® 4760 with a powerful set of scan settings to greatly improve the efficiency of your workflow — so that with one touch the document is scanned automatically to email, Microsoft® Word, your printer, a file folder, or to one of many other destinations.

Acuity

Acuity enables your scanner to instantly improve the visual clarity of every document that you scan. Using advanced algorithms and dynamic thresholding, Acuity will intelligently correct documents containing imperfections, improve quality of scanned images for archiving, increase OCR accuracy, and save time.

DriverPLUS

DriverPLUS is a new generation of driver technology that is based on the TWAIN™ 2.3 specification, which provides advanced features and greater reliability for both users and system integrators. DriverPLUS combines the features of advanced 32- and 64-bit native Windows®-based TWAIN and WIA drivers, plus new Acuity

optimization software and a sophisticated user interface.

Choose Kofax® VirtualReScan® (VRS) Basic or Pro

Visioneer OneTouch with Kofax VRS technology is an integrated software solution that combines the ease of Visioneer OneTouch scanning with the superior image quality achieved with Kofax VRS 4.5. Kofax VRS is an award winning, patented technology that automatically insures the best possible image quality and OCR accuracy for scanned document images. As pages pass through the scanner, VRS performs a multipoint inspection of each document, instantly checking and adjusting alignment (skew), brightness, contrast, and image clarity.

Nuance®

OmniPage Pro

Nuance OmniPage® provides a precise OCR and advanced layout detection with Logical Form Recognition™ (LFR) technology. Scanned documents are transformed into editable, formatted text which can then be used in virtually any word processing, desktop publishing or web publishing program.

PDF Coverter

Nuance PDF Converter is the smarter PDF software choice for businesses. Combining powerful functionality, superior Microsoft Office® support, built-in intelligence, DMS integration, and intuitive ease of use, Nuance PDF Converter provides everything you need to create, convert, edit, assemble, and securely share PDF files for increased productivity, enhanced collaboration, and improved compliance.

Office Gemini Dokmee Capture

Dokmee Capture high production scanning software provides all the features required for document capture, processing and reporting. It allows businesses both large and small to easily convert their scanned documents into digital files, capture images and data contained in them, and then transform it into organized searchable information. This mission-critical business information is then placed into a centralized location to be easily searched, stored and retrieved when needed. Dokmee Capture is the perfect answer for companies in any industry needing to catch up on a backlog of converting paper files to electronic images.
