BE MORE PRODUCTIVE

The Xerox[®] DocuMate[®] 4830 scanner is an effective way to index stacks of large-sized documents and import them to a content management solution in a single step. The DocuMate 4830 offers an attractive price, outstanding performance and exceptional reliability for corporate workgroups and departments, and small or medium-sized businesses.

The DocuMate 4830 has a friendly interface that allows the user to simply insert their document, and then press the Simplex or Duplex button on the front panel to initiate scanning and automatically email, print, convert or share their file. The buttons are preset at the optimal resolution, color depth, file format and paper size for common

scanning tasks, but of course can be easily changed at any time.

Ideal for document management, the DocuMate 4830 includes software tools to edit, crop and retouch scanned images and organize the files into folders. With the touch of a button, users are able to scan and automatically store, OCR, print, attach or view their documents in a range of locations from the desktop to the cloud.

SECURE AND RELIABLE

Documents are the substance of communication, reference, negotiation and execution of contracts, laws and evidence. Fast, reliable and cost effective document imaging solutions like the DocuMate 4830 provide almost immediate return on investment when

implemented as part of a secure document capture solution.

Regulatory compliance requirements have dramatically increased the need for companies to implement secure and reliable records management. And document capture solutions have become essential to meet the everyday document imaging needs of paper intensive offices.

Businesses in the healthcare, transportation, and industrial manufacturing markets, as well as law offices, courts, clients and administrators who handle and manage substantial quantities of paper will immediately appreciate the functionality, speed and low cost of this capable scanner.

Xerox® DocuMate® 4830 Scanner Software and Specifications

VISIONEER® ONETOUCH

Utility enables the DocuMate® 4830 to automatically send scanned documents to email, Microsoft® Word, your printer, a file folder, or to one of many other destinations.

VISIONEER® ACUITY

Instantly improve the visual clarity of every scan. Acuity uses advanced algorithms and dynamic thresholding to intelligently correct documents containing imperfections making them more readable and increasing OCR accuracy.

VISIONEER TWAIN DRIVERPLUS

DriverPLUS offers an impressive array of settings to enable precise customization of the scan – far beyond current TWAIN specifications and user experience. DriverPLUS also delivers Parallel Scanning, allowing multiple same-model scanners to be connected to a single PC and run concurrent jobs. Visioneer Acuity integration adds intelligent image enhancement and PC Optimization to enable full-speed scanning.

OCR AND PDF SOFTWARE

This leading, easy-to-use OCR application reduces the need of retyping and paper storage, precisely preserving the original document's layout and formatting while converting your scans into various file formats, including searchable PDF. PDF features allow you to create, convert, edit, and securely share PDF files. The resulting text can then be used in virtually any word processing, desktop publishing or web publishing program.

DOCUMENT ORGANIZATION

To simply managing your scans, a document organizer combines the efficiency of document management, the convenience of high quality scanned documents and the power of creating PDF files, adding a new level of productivity in managing documents.

OFFICE GEMINI® DOKMEE CAPTURE

Dokmee Capture high production scanning software provides all the features required for

document capture, processing and reporting. It allows businesses both large and small to easily convert their scanned documents into digital files, capture images and data contained in them, and then transform it into organized searchable information. This mission-critical business information is then placed into a centralized location to be easily searched, stored and retrieved when needed. Dokmee Capture is the perfect answer for companies in any industry needing to catch up on a backlog of converting paper files to electronic images.
